

### 1) Free-form constructive feedback

The slides are nice and I appreciate you using carefully chosen visual aids and text to reinforce learning.

But using three images on one slide gets a little cluttered and confusing. Plus, some of the images are a little too cartoony and take away from the professionalism of the presentation.

In the future, try to reduce the clutter of images and make them update more frequently to reinforce more points that are made in the lecture.

### 2) S.B.I Model:

When I watched the presentation, I felt a little bored with the images not updating frequently. That caused me to stop watching the course for a little while and I didn't learn as much as I could have.
