

HOW TO BOOST EMPLOYEE CONFIDENCE

How Do You Get Confidence?

- One way is to become good at something after trying it
- Practice helps much more when combined with guidance and coaching
- When we become good at something, we become happier doing it, and employees start to enjoy the job more

When An Employee Struggles

- Don't point out too many negative things, but show them how to improve
- Be available, patient, and helpful
- Find what the employee is doing well and point it out, highlighting their strengths
